

Dear Ironwood Residents:

The Ironwood Board of Directors would like to inform you that the Collier Licensing Board for Collier Management has been on the premise and has posted three "Stop Work Order Notices" on units that had work done by Fideler Construction.

The County has requested a list of all units that had work done by Fideler which the board supplied.

Please be advised that "Stop Work Order Notices" might be put on these units as well.

These notices are Procedural and simply prevent Fideler from doing any additional work on the Ironwood units that they previously worked on.

If you have any questions or concerns, please contact a member of the Ironwood Board of Directors.

Thank you

Ironwood Board of Directors
